

WHAT DISTINGUISHES DEVEREUX

in its service to children who need remedial education? It furnishes—

- 1. Group living and learning experience with others of a similar aptitude and level of development.**
- 2. The functioning of a multidisciplinary team with long experience in evaluating potential and in structuring programs in a residential setting unique in its wide range of homogeneous groupings.**
- 3. A philosophy of optimum blending of traditional methods with the best of the new from the frontiers of research.**
- 4. Established programs of diagnosis, treatment, research, and training soundly based on the wide spectrum of a multidisciplinary team of experts.**

Serving the West Coast, Devereux Schools are located at Santa Barbara, California (Mr. Keith A. Seaton, Registrar); serving the East Coast, Devereux Schools at Devon, Pennsylvania (Mr. Charles J. Fowler, Director of Admissions); and serving the Southwest, Devereux Schools at Victoria, Texas (Mr. John M. Barclay, Director of Development). Your inquiries are welcomed.

High Blood Pressure Controlled Through New Approach

(Continued from Page 12)

they said, the amount of blood returned to the heart is reduced, with a subsequent decrease in the heart's output of blood and consequently in the blood pressure.

Despite the development of improved antihypertensive drugs which block impulses from the nervous system to the blood vessels and heart, these so-called ganglionic blocking agents produce side effects which "annoy the patient and doctor," the authors commented.

If further studies show equally good results, guanethidine or other drugs with similar action "will probably replace ganglionic blocking agents in the treatment of severe hypertension," they said.

Guanethidine at present should be used only for patients with severe high blood pressure and when other therapy has failed, they added.

Ismelin is manufactured by Ciba Pharmaceutical Products, Inc., Summit, N. J.

A CHAIR FOR BRONCHOSCOPY—F. J. D. Knights. *Lancet*—Vol. 1:488 (March 4) 1961.

The chief features of this especially designed chair are (1) the direct and accurate control of the headrest by the operator, (2) the wide angle of the backward tilt of the chair, and (3) easy transportability.

COOK COUNTY graduate school of medicine INTENSIVE POSTGRADUATE COURSES

STARTING DATES—FALL, 1961

Surgical Technic.....	Two Weeks, Sept. 18
Surgery of Colon & Rectum.....	One Week, Sept. 18
Gallbladder Surgery.....	Three Days, Oct. 9
Surgery of Hernia.....	Three Days, Oct. 12
Basic Principles in General Surgery.....	Two Weeks, Oct. 16
Surgical Board Review, Part I.....	Two Weeks, Nov. 6
Surgical Board Review, Part II.....	Two Weeks, Nov. 27
General Surgery.....	One Week, Sept. 18
Hand Surgery.....	One Week, Oct. 9
Gynecology, Office & Operative.....	Two Weeks, Sept. 18
Vaginal Approach to Pelvic Surgery.....	One Week, Sept. 11
Obstetrics, General & Surgical.....	Two Weeks, Oct. 9
Basic Electrocardiography.....	One Week, Oct. 2
Internal Medicine.....	Two Weeks, Oct. 16
Fractures & Traumatic Surgery.....	Two Weeks, Oct. 23
Thoracic Surgery.....	One Week, Oct. 16
Blood Vessel Surgery.....	One Week, Nov. 13
Urology.....	Two Weeks, Oct. 23

TEACHING FACULTY:

Attending Staff of Cook County Hospital

ADDRESS:

REGISTRAR, 707 South Wood Street,
Chicago 12, Illinois
